

Secure Forms

A streamlined, secure way to collect information quickly via secure web forms

Secure Forms powered by Mediprocity modernizes slow paper documents into easy-to-use online forms. Prescribers, patients, families and pharmacies can receive, complete, sign, and send back forms on any mobile device.

Benefits

Easy access

Access forms on any mobile device, tablet, or desktop, anytime.

The right form, completed

Set mandatory fields & collect legally-binding signatures, always on the correct form version.

Anywhere, anytime

In-house or many states away, get signatures and completed forms fast.

Add attachments

Upload and attach files and pictures to any form.

Most popular secure forms:

- New hire paperwork
- High-cost med approvals
- Refill requests
- Admissions
- Advanced directives
- Pharmacy delivery tracking
- Visitor screening for COVID-19 exposure

Get started with Secure Forms today

How do I get started with Secure Forms?

Contact our sales team at sales@mediprocity.com or call us at (636) 812-0242 to get started today.

What about training and support?

If you'd like to schedule a demo or training, please contact us at support@mediprocity.com. Our website (mediprocity.com/contact/) also has tutorials, FAQs, and videos.

How do I set up my forms?

Our tech team will built your forms, customizing them with your logos and branding. We will then test, deploy, and manage the forms for you.

What if I don't have IT support to set up Secure Forms?

Communicating with your IT department is not required to setup and use Secure Forms. But, we are happy to coordinate with them as needed.

What formats can I get my form data in?

Export your form data easily as PDF, XML, Excel, CSV or SQL formats.

Can my form collect official legal signatures?

Yes! Forms can be designed to collect legally-binding "wet" signatures.

How can I reach customer support?

Submit a support ticket at mediprocity.com or email us anytime at support@mediprocity.com.
